

Information for Parents and Carers

Dear parent/carers,

We are pleased to let you know that, as part of your child's maths and science learning, they will be taking part in an exciting project called [Energy Heroes](#). The programme helps children develop their data-handling skills while also deepening their understanding of how energy is used, where it comes from and how we can use it more responsibly.

Over the course of six lessons, an Energy Heroes assembly, and some ongoing project work, your child will explore how energy is used both at home and in school. They'll also bring home a series of Home Challenges for the whole family to try out - you might even find you've gained a small (but very enthusiastic) energy inspector at home!

As part of the project, pupils will complete an energy log book, and we'd be grateful if you could help your child read your household electricity meter (if possible). This provides valuable data for their maths lessons and helps them understand how much energy is used, what it costs and where savings can be made.

If you are happy for your child's photo or video to be used, it will help us showcase the Energy Heroes programme, inspire other schools, highlight pupils' impact, and support our fundraising and partnership work. Photos and videos will be stored securely and may appear on the Energy Heroes website, social media, printed materials, newsletters, and reports to partners and funders. They will be reviewed and deleted when no longer needed. Please indicate your preference by filling in the permission slip below.

Please don't hesitate to contact us if you have any questions: hello@energyheroes.org.uk

You can find out more about the programme by visiting our website: [Energy Heroes \(energy-heroes.org.uk\)](http://energy-heroes.org.uk)

Best wishes,

The Energy Heroes Team
